DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 2 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record, taken as a whole, does not show nor suggest an all metal ring seal with the combination of limitations required by the claims. Tanner is the closest art. The embodiments in Figures 9, 10, 12, and 13 are relevant. However, Figs. 12 and 13 lack the flat face contact portions. Further, Tanner is silent as to whether the seal ring undergoes the torsional deformation as required by the claims. Tanner suggests that the seal ring can "flex", but this tends to imply bending rather than rotating. And there does not appear to be any motivation, absent Applicants' own disclosure, to modify the art in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
